Full Stack Developer | Java | Python | C# | Angular | SQL | REST APIs

PROFESSIONAL SUMMARY

Java Backend Developer with **3+ years of experience** designing and developing scalable backend systems using **Java 17, Spring Boot, Angular,** and **Microservices architecture**. Strong expertise in REST API development, secure authentication (**JWT**, **OAuth2**), **Kafka**-based **event-driven** systems, and **MySQL** performance optimization. Experienced in **Docker deployments**, **CI/CD** pipelines, and production issue resolution in Agile environments. Focused on building **clean**, **scalable**, **and high-performance systems**.

TECHNICAL SKILLS

- **Languages**: Java, C#, Python, JavaScript, TypeScript
- **Backend**: Spring Boot, Spring MVC, Spring Cloud, Microservices, API Gateway, Hibernate, Spring Data JPA, JDBC, Spring Batch, Spring Caching, FastAPI, .NET
- **Frontend**: Angular, Bootstrap
- **Database**: MySQL, PostgreSQL, SQL Optimization, Indexing, Joins, Stored Procedures
- **Security**: Spring Security, JWT, OAuth 2.0, Role-Based Access Control (RBAC)
- **DevOps & Cloud**: Docker, Kubernetes, AWS EC2, Jenkins, CI/CD Pipelines, Linux, Apache Kafka
- **Tools**: Git, GitHub, Maven, Postman, Swagger, Apache Tomcat, Eclipse, VSCode, JasperReports

WORK EXPERIENCE

Java Backend Developer – Annaa Silicon Technology | *Jan 2023 – Dec 2025* | *TamilNadu, India*

- Developed **20+ REST APIs** using Java 17, Spring Boot, Spring Security (JWT, OAuth2) for an ERP system
- Delivered **8+ core ERP modules** including authentication, billing, inventory, accounting, and reporting
- Improved live **production performance by 30%** through **MySQL** query tuning, indexing, and log analysis
- Migrated legacy monolithic application to **microservices architecture** using **Spring Cloud** API Gateway
- Developed **Angular frontend** components, connected them to **Spring Boot** microservices via REST APIs
- Resolved **50+ production issues**, improving stability, uptime, and release reliability

Full Stack Developer Intern (Part-Time) – Art of Living | *Feb 2023 – Jul 2023* | *TamilNadu, India*

- Built full-stack modules using Java, JDBC, MySQL, HTML, CSS, Bootstrap, and JavaScript
- Designed responsive UI components and integrated backend services

KEY PROJECTS

- **Retail ERP System (GST, POS & Finance)** – Designed and implemented an end-to-end retail ERP covering GST-compliant billing, POS transactions, inventory management, accounting (ledgers, P&L), and financial reporting using **Spring Boot, Microservices, REST APIs, and MySQL**
- **E-Commerce Management System** – Secure authentication with **Spring Security and JWT**; product catalog, order management, and **payment gateway integration** APIs
- **Room Booking Application (Biometric**) – Microservices-based booking workflows with fingerprint scanner **biometric authentication** for secure check-in and check-out

EDUCATION

B.E. Computer Science Engineering – Anna University, Chennai | 2019 – 2023

Visa Status: Visit Visa | Immediate Joiner | Available in UAE
